Sketch of Miss Lavenia Oldham's

Work in Japan.

The ship which carries this letter to America also carries one of Jaan's most faithful workers—Miss
Lavenia Oldham. Miss Oldham is returning to the home land for a well-earned vacation of one year. She has been in Japan twelve years, having spent all this time in the city of Tokio, and has confined her in the city of Tokio, and has confined her section of the city.—Chaigeme Kusection of the city—Ushigeme K setty of Tokio, and has confined her efforts, for the most part, to one efforts, for the most part of the more than a paragraph from her pen. Without her knowledge or consent I ask for space to describe

her work somewhat.
When I first came to Japan eleven years ago Miss Oldham and Miss Rloch were living in a small Jane nese house in Ushigome ward. They had gathered around them a small band of believers, and Mr. Nishioka, one of our evangelists, was preaching to this embryo church. After a short time Miss Oldham moved to herself in another per of the same ward, and began shettings again in her home, assisted this time by the young men whom she attracted to her Bible classes. In a few years, with her own money, she creeted a neat chapel not far from her home. The Foreign Christian Missionary Society purchased a house at 20 Nakano Cho, Ushigome Ku, and again she and Miss Rloch moved together. In this home and in the chapel Miss Oldham's best and most effective work has been done. Besides the work in these two piaces, she has ad ay school in another part of the work has been done. Besides the work in these two piaces, she has a day school in another part of the ward, and visits every week Hachji, a town about twenty miles from Tokio. She has several help-ac working with her, and in connection with these she conducts her day school, two Sunday Schools, worsen's meetings and the visiting. day school in another part of the ward, and visits every week Hachioji, a town about twenty miles from Tokio. Just here let us say that we have no apology to make to any one for our advocacy of clean, sober, self-controlling men who aspire to represent the people in any city, county, district or State election. On the sixth page of this issue is found the platform adopted by the Democratic National convention. We presume ourreaders, who conton have access to daily papers, will appreciate, our efforts to give them something of the claims of the leading political parties.

If the earnestness and enthusi-asm of the Democratic masses is an index to any thing it is to suc-cess at the polls the coming National election, November next, when a President and Vice-Presiwhen a President and Vice-President will be chosen by the people.

Strifes within party lines have been settled and the questions before the people are: Shall Republican rule continue by which the working masses may labor long, live the more economically and each year be the poorer, or shall be preserved by the possession and Democracy take possession and administer equal rights to all and special privileges to none. than President, he caused the following message to be forwarded to the messengers in convention:

"I regard the Gold Standard as firmly and irrevokably established, and shall act accordingly if the action of today shall be ratified by the people. As the platform is silent on the subject, my views should be made known to the convention, and if they prove to be unastisfactory to the mejority I request you to decline the nomination for me at once so that another may be nominated before adjournment."

In response to this the convention caused the collowing reply to be wired Judge Parker:

tion caused the following reply to be wired Judge Parker:

"The platform adopted by this convention is silent on the question of monetary standard because it is not regarded by us as a possible issue in this campaign and only campaign issues were mentioned in the platform. Therefore there is nothing in the views expressed by you in the telegram just received which would preclude a man enter-taining them from accepting a hom-ination on said platform."

This question adjusted, the con-vention settled down in its efforts to secure a candidate for Vice Pres-

#### ALKALOID IN TOBACCO.

ALKALOID IN TOBACCO.

Is Harnful Element Rather Than Nicotine, Says Scientist.

The British Medical Journal states that, according to recent investigations brought to the notice of the Vienna Academy of Sciences, the aroma of tobacco and the effect of tobacco on the smoker are not, as is commonly supposed, due to nicotine, but to a quite different chemical body, an alkaloid. Dr. Frenkel, the author of the paper submitted to the academy, states that he observed that the physiological action of tobacco does not correspond to the amount of nicotine which it contains, and he mentions that certain kirds of Havana tobacco which are poor in nicotine exercise a greater effect on the human system than any other kinds which are rich in incotine. These facts induced Dr. Frenkel to examine tobacco to see if he could find the chemical body which really is the cause of disturbing or soothing effects. From different kinds of tobacco he separated a yellow looking salt. The further examination of this salt convinced Dr. Frenkel that the aroma and the effects of tobacco he separated a yellow looking salt. The further examination of this salt convinced Dr. Frenkel that the aroma and the effects of tobacco he separated a yellow looking salt. The further examination of this salt convinced Dr. Frenkel that the aroma and the effects of tobacco he carried by highly volatile properties. If the conclusions which Dr. Frenkel arrived at are correct, smoking may which is characterized by nignly colatile properties. If the con-clusions which Dr. Frenkel ar-rived at are correct, smoking may be freed of some of its evil effects, for it may be possible, in contra-distinction to the case of nicotine, it remarks from tobacco the propto remove from tobacco the prop-erty which acts deleteriously on the devotee of the "weed."
